RUMORED PILAR SHOT AGUINALDO

The Report Not Much Believed-A Fillpino General, Believed to Be Aguinaldo, Seen Haranguing Rebel Troops Artillery Bombarded Blockhouses,

MANILA, June 28, 7 a. m.-Major General Otis ordered the opening to trade of many important ports that have been closed since the outbreak. These include San Fernando, on the west coast of Luzon; Aparri, on the north coast; Curimoa and all ports in the islands of Samar and Levte.

merce had been tied up in the harbor here for months, and the shippers and merchants had been urging the government to raise the blockade. When the decision was made known yesterday the scene in the customhouse was as animated as the floor of an American Stock exchange. It was a busy day. Shipowners rushed to get their clearance papers.

There likely will be a great boom in the hemp business, which had been at a standstill. The ships will race to bring the first cargoes before the demand weakens. As there is a heavy export duty on hemp this will greatly increase the revenues. The interests of the natives, as well as the merchants and traders generally, led General Otis to take this action. Delegations from the southern islands told him that the cessation of business was bringing much suffering to peaceful inhabitants.

Gunboats will protect the shipping in some ports, but elsewhere shippers must risk confiscation by the insurgents, who exact heavy tribute of all ships they The ramor that Aguinaldo had been

assassinated was in circulation here for several days. It was not believed, but its currency gave it a definite form. According to the story, General Pio de Pilar called on Aguinaldo on June 19 and accused him of causing General Luna's death. Aguinaldo denied responsibility, and added that he deeply regretted Luna's death. General Pio del Filar, as the story goes, called him a liar and scoundrel, shot him twice in the head with his revolver and walked away unmoiested.

The report found little credence in A Filipino general, mounted on a big horse, with a numerous staff, has since been seen haranguing the Filipino troops around San Fernando. in Pampamga province, and this officer

s supposed to be Aguinaldo. Yesterday four guns of Hobbe's batery and other artillery bombarded the Filipino blockhouses and trenches about two miles north of San Fernando The blockhouses, which had been used by Filipino sharpshooters to annoy the American outposts, were destroyed. The enemy made no resistance.

Yesterday the Spanish consul general, yearing a brilliant uniform, visited Major General Otis. He was received in the latter's office, which is hung with portraits of Spanish royal personages. In the course of a graceful speech he said that the Spaniards in the Philippines would hold no resentment because of the past and would entertain no sentiments but those of respect toward the new regime.

AFTER THE VOLUNTEERS.

Washington, June 28.-Au impression prevailed at the war department that a large proportion of the volunteers may be re-enlisted if some arrangement can be made whereby the men can be and relatives in the United States. The idea is to re-enlist them in the Philippines and give them a furlough to return to the United States. This furlough would be for at least four months, more than half of which time would be required to make the round trip from Manila to the United States. General Otis has been forming four skeleton egiments from the volunteers.

President McKinley was in conference for a time with Secretary Alger respecting the best method of carrying out General Otis' desire to maintain as least throughout the rainy season, an effective fighting force of no less than 30,000 men in the island. In the general's last estimate, which was received Monday, he asked for an "effective" force of 30,000 men. This last estimate tween Great Britain and the United | will oblige the wardepartment to secure will hold their annual picnic at this friendship would increase as the and his casualty list make it evident Lakeside park on Thursday, July 27. Years passed—a sentiment which was received with hearty cheers.

authorities that no diminution in this disability rate could be expected during the wet season, but that the conditions He-I see the doctors have decided may grow even worse as the season adthat Slashem, who killed his wife and to be invalided home to the United States, it being demonstrated particu-She-Well, I don't see why a man larly in the typhoid cases, that convalin his right mind who would do a escence is rare unless the patient leaves thing like that isn't crazy. - Cleveland | the Philippines. Thus the department will be under the necessity of keeping up a steady flow of recruits from the United States if General Otis' desire is

The recruiting officers' reports indicated an ability on their part to supply 1,000 men a week, more than sufficient, it is believed, to meet General Otis needs in the future, while as for the present, the department has assembled 5,000 recruits at San Francisco ready for transport as soon as ships can be found.

Asked about the question of additional troops in the Philippines Secretary Long said all the troops General Otis needed would be sent to him, but General Otis had up to this time refrained from asking for more. Besides little could be accomplished during the rainy season in the way of active campaigning.

MONONGAHELA COAL INTERESTS. Reported That Details of a Combine Have Been Arranged.

New York, June 28.—It was reported in Wall street that all the details for good until July 5. Train at 7:06 a.m. the consolidation of the river coal interests have been practically arranged, and that a formal announcement would be made in a few weeks. Do you know the story of Damocles in the ancient mythol--the man who

THE HANGING SWORD.

lived with a sword continually hanging above his head, sus-pended only by a single hair? Many a woman of the present day is like Damocles. She is living with a constant menace of danger hanging over her head because of some weakness or disease of the special organism which makes her a woman, It

comparatively slight and trivial at first but any instant it may develop into a serious and dangerous complaint, totally unfitting her for all the duties and responsibilities of a true womanly career. sponsibilities of a true womanly career.

"I suffered very much with female weakness and other ailments for more than two years, when I wrote to you for advice." says Mrs. Anna Willy, (Michigan House). Northville, Spink Co., So. Dak, in a letter to Dr. R. V. Pierce of Buffalo, N. V. "After carefully following your advice and taking six bottles each of Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery' I am now a well and happy woman. I have also taken several visls of your 'Pleasant Pellets' which did me a great deal of good. I shall always recommend your medicine wherever I go."

Women who would know how to aveid Women who would know how to avoid the dangers to which they are exposed at every critical stage of their physical development should read that grand book The People's Common Sense Medical Adviser by R. V. Pierce, M. D. It contains over one thousand pages profusely illustrated with engravings and colored plates. It is a complete medical library in one volume. More than half-a-million copies were sold at \$1.50 each. But a free copy will be sent handsomely cloth-bound for the simple cost of mailing, 31 one-cent stamps; or strongly paper-bound for 21 stamps. Address, Dr. R. V. Pierce, Buffalo, N. Y.
